

Cookies

To make this site work properly, we sometimes place small data files called cookies on your device. Most big websites do this too.

What are cookies?

A cookie is a small text file that a website saves on your computer or mobile device when you visit the site. It enables the website to remember your actions and preferences (such as login, language, font size and other display preferences) over a period of time, so you don't have to keep re-entering them whenever you come back to the site or browse from one page to another.

How do we use cookies?

If you log into this website with a username and password, we store that you are logged in and that your session is secure. These cookies are essential for any portion of the website that require you to log in. Disabling them will prevent usage of these elements of the site.

We may store website settings so you do not have to re-enter them. These cookies are not essential for the website to work but some features may not work as intended if you disable them.

We anonymously track your usage of the site via Google Analytics. No personal information is stored and the cookies cannot be used to identify you. These cookies are not essential and can be disabled without affecting your use of the website.

No personal information collected is shared with third parties and the cookies mentioned in this document are not used for any purposes beyond the ones stated.

How to control cookies

You can **control and/or delete** cookies as you wish – for details, see aboutcookies.org. You can delete all cookies that are already on your computer and you can set most browsers to prevent them from being placed. If you do this, however, you may have to manually adjust some preferences every time you visit a site and some services and functionalities may not work.
